Bruce Gilbert

web-site & web application development | HTML, CSS, JavaScript, CMS configuration
Durham, North Carolina

Summary

CURRENTLY OPEN TO NEW OPPORTUNITIES CONTRACT/
FREELANCE AND FULLTIME

phone: 919-656-2374 email: webguync@gmail.com

SUMMARY

Bruce is a high-energy, positive, creative problem solver and an innovative web developer/designer /coder with extensive professional experience in creating, developing, and maintaining web content and web communications, web applications, email marketing, search engine optimization, graphics development, and social media. Bruce is an excellent writer, communicator, and a self-starter. Bruce has worked for a variety of high-performing cross-functional teams as well as independently as a freelancer.

SPECIALTIES AND EXPERIENCE:

- Semantic coding using HTML5, CSS3, JavaScript(ES6)
- On-line marketing, search engine optimization by using proper validated semantic code
- Back-end programming knowledge with PHP/MySQL, the basic experience of OOP principles
- CMS design and development utilizing Drupal, WordPress and Sitecore
- Knowledge experience with JavaScript libraries and frameworks including jQuery, Angular 2/5, Vue JS and React/Redux
- Responsive Web Design (RWD), Bootstrap 3/4 framework.
- Knowledge of designing with accessibility in mind, A11Y (Section 508, WCAG 2.0)
- GIT version control system
- Digital strategy (social media, SEO, SEM)
- Experience working in an Agile environment with scrum, two-week sprints, Jira tracking, story points, and retrospectives.
- Experience working on a remote distributed team using Slack, Email, Teams, and Zoom/Skype as primary communication tools.

My work/life philosophy:

- You never stop learning in life and anything can be learned over time.
- I believe in working hard and playing hard (work/life balance).
- I am always trying to find simplified solutions for difficult problems.
- Try Not. Do or Do not...there is no Try (o.k, I stole that from Yoda).
